Evaluation of Practical assessment

The assessment done by the trainees on 10.12.2019 were evaluated and distributed to the trainees by Dr J.P.Jacob, Scientist G & Training in-charge. He explained the mistakes done by them and gave an insight to Pest Identification Guides and Tools. He also introduced and explained the method of assessing a pathological or entomological problem and the way of reporting the details with all relevant information carried out including recommendation for the management of specific problem.

Preparation of Bio-controls

Three general approaches to biological control; importation, augmentation and conservation of natural enemies were taught to the trainees by Dr J.P.Jacob, Scientist G & Training in-charge. The trainees formulated various biological control agents and stored them. The entire session was guided by Ms.Sreejitha, Technical Officer, Mr Senthil, Technical Officer and Mr.Nataraj, JRF.
