

7 Lakes, 1,000+ Tonnes of Waste & 1 Forest: Meet the man behind this massive impact
Coimbatore, 15 May 2019

The NGO would thus undertake extensive awareness drives with the locals residing near the respective lakes. In addition, the NGO sowed 1.36 lakh palm seeds in and around the water bodies that they restored

The NGO is now growing a Miyawaki forest

They are now growing a Miyawaki forest at Vellalore lake. It is a Japanese method of tree plantation that grows saplings ten times faster, with the forest being 30 times denser. Around 2,500 saplings of 60 varieties of medicinal plants have been sown. The final goal is to create a forest with 16,000 trees.
