Bhopal to have unique shelter home for elderly trees rehabilitation

17 October 2022

Bhopal: In a unique of its kind initiative the country's first shelter home for trees has been built in Bhopal to give new life to the elderly green friends in the name of [Shri Ram Shatayu Vanashram](#), local media reported.

Here trees uprooted due to natural calamity or who have completed 100 years of age will be given shelter. [Shri Ram Aastha Mission and Municipal Corporation](#) are preparing this unique shelter home.

This shelter home has been built in one acre near Rajabhoj Airport. Eight trees have been given new life by giving shelter to this forest, so far. All these trees are more than 100 years old. Now they have broken open.

The [Satparni](#) tree, which fell in front of CM House on August 22, will also be given a new life by giving shelter.

Here the trees of 90 to 100 years of age have been shifted in the shelter. An official was reported saying that there are six trees of 90 to 100 years of age in [Rahul Nagar](#) being built near Riviera Town, in which there are three tamarind trees, two Gulmohar and one Gultarra species tree. These will also be shifted in the next three months.

If elderly trees have fallen in someone's place, then before removing them, they can contact on mobile number 92000-52000. They will be shifted to Shri Ram Shatayu Vanashram for free.

Many trees in the city are above 100 years old. In such a situation, a shelter home has been built for the trees with the joint effort of the [Municipal Corporation](#) and [Ram Aastha Mission](#). In this initiative, apart from the natural disaster, efforts are on to restore other elderly trees and give them new life.
