BCCI Planting Tree Initiative: The Board of Control for Cricket in India (BCCI), which is known as the richest cricket board in the world, has taken another sensational decision. As part of the IPL-16 playoffs schedule starts today, BCCI will plant five hundred saplings for every dot ball bowled by the bowlers in these four matches (two qualifiers, one eliminator, final).

The BCCI took this decision before the first qualifier between Chennai Super Kings and Gujarat Titans at Chepauk. As a part of this, Star and Jio, which are broadcasting IPL matches, show a tree symbol on the scorecard whenever the dot balls come. With this, the spectators who were watching the match found it new and started searching for the truth.

According to this, BCCI will plant five hundred saplings for every dot ball thrown in the four matches to be played in the playoffs. For example, if 50 dot balls are hit in one match, a total of 25 thousand plants will be planted at the rate of 500 plants per dot ball. BCCI will undertake a sapling program across the country.

In CSK – GT match..

Titans bowlers bowled a total of 34 dot balls in 20 overs as part of the ongoing match between Chennai and Gujarat in Chepauk. That means BCCI will plant 17 thousand ($34 \times 500 = 17,000$) saplings through one CSK innings. And we have to see how many dot balls will be scored in the next three matches along with the total of this match.

They are the inspiration..

As part of the IPL season last year, the Rajasthan Royals team started an amazing program with the famous French company Shinder Electric. It has been decided to plant 17,000 saplings within a period of six months after the end of the IPL final. Since about 10 thousand tons of carbon dioxide emissions are released through a single IPL match, this idea was made to play carbon free matches in the next 30 years. It is known that BCCI also got inspiration from this program. If this program is successful, there is no possibility of doing more like this in the coming days.
