

## **BSF kicks off massive tree plantation drive from Mohali campus**

31 July 2022

The Border Security Force (BSF) kicked off a massive tree plantation campaign along the entire western borders of the country from its campus in Mohali today. Saplings of various fruit bearing and ornamental species are being planted during the drive.

The drive was led by Pankaj Kumar Singh, Director General, BSF, along with PV Rama Sastry, Additional Director General, Western Command.

Speaking on the occasion, Singh reiterated the importance of tree plantation for the benefit of mankind and for the future generation as green cover helps provide cleaner air and also mitigates the adverse effects of climate change.

Saplings are being planted every year by the BSF in the barren areas during the monsoon season to ensure greater survivability. This pan-BSF campaign is being organised up to the border outpost level from Kashmir to Gujarat, in which family members of the BSF personnel are also participating.
