Despite the COVID-19 pandemic, the first phase of Isha Foundation's agroforestry initiative 'Cauvery Calling' is on track and the target of 1.1 crore (11 million) trees for this year will be met, according to a recent review meeting of the board members.

Founder of Isha Foundation Jaggi Vasudev chaired the virtual board meeting recently to review the progress of 'Cauvery Calling' and the 'Rally for Rivers' initiative, a press release said.

The Karnataka Government would supply 70 lakh saplings this year and Isha Outreach's nurseries would produce 40 lakh saplings in Tamil Nadu, the release said.
