

Harishchandra ghat trees to be preserved with platforms: DC

TNN | Jun 9, 2024, 04.45 AM IST

Varanasi: Divisional commissioner Kaushal Raj Sharma on Saturday inspected redevelopment work being done at Harishchandra Ghat. Some changes in the proposed model were given priority for the convenience of public.

He also directed the executing agency to complete the work within the stipulated time period. The commissioner said passes would be issued for mixer and other construction vehicle along with permission for daytime transit to speed up the progress of work. An access road of 22 feet will be built after the construction of the complex for visitors and all transformers will be shifted to the first-floor level of the building on the roadside.

He said all existing trees should be preserved and platforms should be constructed to protect them. He also directed officials to plant additional trees wherever possible to give greenery to the entire complex. The additional municipal commissioner Dushyant Maurya, Ambrish Mishra of the executing agency and Yogendra Srivastava were present during the inspection.
