Tamil Nadu to hold digital interaction on International Day for Biodiversity

22 May 2020

Today is International Day for Biodiversity. Reflecting on the changed environmental circumstances following Covid-19 pandemic, this year the main theme selected is "Our Solutions are in Nature".

As a part of various initiatives being taken on this day, the Institute of Forest Genetics and Tree Breeding of the Ministry for Environment and Forests, Coimbatore, Tamil Nadu has arranged for a digital interaction on Forest Groves and Ecological Sustainability. The aim of the interaction is to develop smarter strategies for conserving biodiversity. India is home to four bio diversity hotspots.
